

INAPRO® PATROL MSO

The One That Works

Product Description

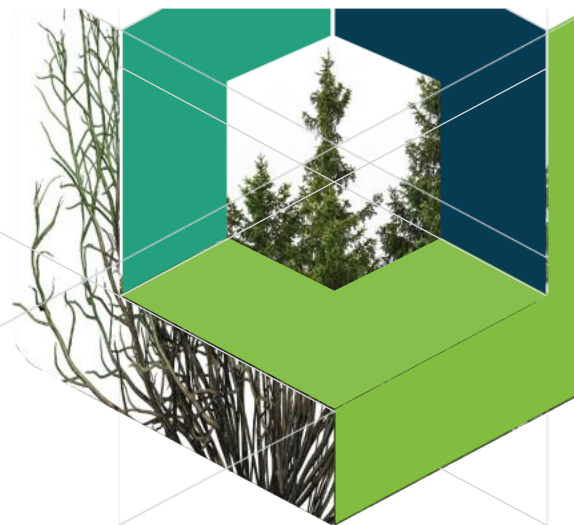

INAPRO® Patrol MSO is a liquid ammonium sulfate with guar-gum based drift retardant package and INAPRO® amphoteric surfactant loading with MSO infusion for increased spreading.

Benefits and Features

- Four-in-one formulation with water conditioning, drift control, surfactant, and spreader
- Fully water soluble, freeze/thaw stable
- Increased efficacy with BAO technology and AMS which prevents ionic antagonism with pesticides
- Outperforms retention and penetration of commodity adjuvants
- Contains proprietary drift control agents specifically designed for AMS products.

Application Rate

0.625-2.5% v/v or 0.5-2.5 gallons per 100 gallons (ground)
2.5-5.0% v/v -or- 2.5 to 5.0 gallons per 100 gallons (aerial)
