

Safety Data Sheet

1. Identification

Product Information.	12720
Product Name:	Waterborne Milltreat™ 111 Concentrate with Timbertreat® ICP-5 Custom Blend
Recommended Use.	Wood preservative
Uses advised against.	No information available
Supplier.	Kop-Coat, Inc. dba Kop-Coat Protection Products 3040 William Pitt Way Pittsburgh, PA 15238 412-227-2700
Emergency telephone number.	Chemtrec: +1-800-424-9300 USA Chemtrec: +1-703-527-3887 ex-USA

2. Hazards Identification

GHS Classification in accordance with 29 CFR 1910.1200

Flammable Liquid, category 3
Reproductive Toxicity, category 2
STOT, single exposure, category 3, NE
STOT, repeated exposure, category 1
Aspiration Hazard, category 1
Skin Irritation, category 2
Eye Irritation, category 2A
Skin Sensitizer, category 1

GHS Pictograms

Signal Word
Danger

Unknown Acute Toxicity

< 0.1% of the mixture consists of ingredient(s) of unknown acute toxicity

HAZARD STATEMENTS

Flammable liquid and vapor.
May be fatal if swallowed and enters airways.
Causes skin irritation.
May cause an allergic skin reaction.
Causes serious eye irritation.
May cause drowsiness or dizziness.
Suspected of damaging fertility or the unborn child.
Causes damage to organs through prolonged or repeated exposure.

Precautionary Statements - Prevention.

Obtain special instructions before use.
Do not handle until all safety precautions have been read and understood.

Keep away from heat, sparks, open flames, hot surfaces. No smoking.
Ground/bond container and receiving equipment.
Use explosion-proof electrical/ventilating/lighting/equipment.
Use only non-sparking tools.
Take precautionary measures against static discharge.
Do not breathe dust/fume/gas/mist/ vapors/spray.
Wash face and hands and any exposed skin thoroughly after handling.
Do not eat, drink or smoke when using this product.
Wear protective gloves, protective clothing, eye protection, face protection

Precautionary Statements - Response.

If swallowed: Immediately call a poison center/doctor.
If on skin: Wash with plenty of water.
If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
If inhaled: Remove person to fresh air and keep comfortable for breathing.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If exposed or concerned: Get medical advice/attention.
Call a poison center/doctor if you feel unwell.
Specific treatment (If applicable, see label for any additional instructions).
Do NOT induce vomiting.
If skin irritation or rash occurs: Get medical advice/attention.
If eye irritation persists: Get medical advice/attention.
Take off contaminated clothing and wash it before reuse.
In case of fire: Use CO₂, dry chemical or foam to extinguish.

Precautionary Statements - Storage.

Store in a well-ventilated place. Keep container tightly closed.
Store in a well-ventilated place. Keep cool.
Store locked up.

Precautionary Statements - Disposal.

Dispose of contents in accordance with local, regional, national, international regulations.

3. Composition/Information on Ingredients

<u>Chemical Name</u>	<u>CAS-No.</u>	<u>Wt. %</u>
Petroleum distillates, hydrotreated light	64742-47-8	25-50
Modified linseed oil	Proprietary	25-50
Glycol ether (non-HAP)	Proprietary	10-25
Surfactant	Proprietary	2.5-10
Tebuconazole	107534-96-3	1.0-2.5
3-iodo-2-propynyl butyl carbamate	55406-53-6	1.0-2.5

The exact percentage (concentration) of composition has been withheld as a trade secret.

4. First-aid Measures

Description of first-aid measures.

General advice.

Show this safety data sheet to the doctor in attendance. For further assistance, contact your local Poison Control Center.

Inhalation.

Move to fresh air. If not breathing, give artificial respiration. Call a physician or poison control center immediately.

Skin contact.

Wash off immediately with plenty of water for at least 15 minutes. Call a poison control center or doctor for treatment advice. Remove contaminated clothing and shoes. Wash contaminated clothing before reuse.

Eye contact.

Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Call a physician or poison control center immediately.

Ingestion.

Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately. Risk of product entering the lungs on vomiting after ingestion. Gently wipe or rinse the inside of the mouth with water. If a person vomits when lying on his back, place him in the recovery position.

Symptoms.

See Section 2 and Section 11, Toxicological effects for description of potential symptoms.

Notes to physician.

Treat symptomatically. There is no specific antidote for effects from overexposure to this material.

5. Fire-fighting Measures

Extinguishing media.**Suitable extinguishing media.**

Use: Carbon dioxide (CO₂). Foam. Dry chemical. Cool containers with flooding quantities of water until well after fire is out.

Extinguishing media which shall not be used for safety reasons.

Water may be unsuitable for extinguishing fires.

Special hazards arising from the substance or mixture.

Flash back possible over considerable distance. Thermal decomposition can lead to release of irritating and toxic gases and vapors. Most vapors are heavier than air. They will spread along ground and collect in low or confined areas (sewers, basements, tanks). Vapors may travel to source of ignition and flash back. Immediately place absorbent material in a sealed water-filled metal container to avoid spontaneous combustion of absorbent material contaminated with this product. Air oxidation of certain components of this product may cause waste soaked with this product to spontaneously combust. Air/vapor mixtures may explode when ignited. Containers may explode when heated.

Advice for firefighters.

Use personal protective equipment.

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures.**Personal precautions.**

Avoid contact with the skin and the eyes. Evacuate personnel to safe areas. Use personal protective equipment. Ensure adequate ventilation, especially in confined areas. Keep people away from and upwind of spill/leak. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Eliminate all ignition sources (no smoking, flares, sparks or flames in immediate area). Stop leak if you can do it without risk. Stop all work that requires a naked flame, stop all vehicles, stop all machines and equipment that may cause sparks or flames. Thoroughly decontaminate all protective equipment after use. Personal protection needs must be evaluated based on information provided on this sheet and the special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred, and the training and the expertise of employees in the area responding to the spill.

Advice for emergency responders.

Use personal protection recommended in Section 8.

Environmental precautions.

Prevent further leakage or spillage if safe to do so. Do not allow material to contaminate ground water system. Prevent product from entering drains. See Section 12 for additional Ecological information.

Methods and materials for containment and cleaning up.**Methods for Containment.**

Dike far ahead of spill; use dry sand to contain the flow of material. Prevent further leakage or spillage if safe to do so. Cover liquid spill with sand, earth or other noncombustible absorbent material. Use personal protective equipment.

Methods for cleaning up.

Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers. Clean contaminated surface thoroughly. Keep in suitable and closed containers for disposal. All equipment used when handling the product must be grounded. Ventilate the area. Use personal protective equipment as required. Shut off ignition sources; including electrical equipment and flames.

Reference to other sections.

See section 8 for more information.

7. Handling and Storage

Conditions for safe storage, including any incompatibilities.

Advice on safe handling.

Avoid contact with skin, eyes and clothing. Handle in accordance with good industrial hygiene and safety practice. Keep away from open flames, hot surfaces and sources of ignition. Do not eat, drink or smoke when using this product. There is a hazard associated with rags, paper or any other material used to remove spills which become soaked with product. Avoid accumulation of these: they are to be disposed off safely after use. Empty containers may retain product residue or vapor. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose container to heat, flame, sparks, static electricity, or other sources of ignition. Wash hands before breaks and immediately after handling the product. No smoking. Immediately place absorbent material in a sealed water-filled metal container to avoid spontaneous combustion of absorbent material contaminated with this product. Wear personal protective equipment. Remove and wash contaminated clothing before re-use. Take precautionary measures against static discharges. Do not breathe vapors or spray mist. Ensure adequate ventilation. Use according to package label instructions. Ground and bond containers when transferring material.

Hygiene measures.

Do not eat, drink or smoke when using this product. Keep away from food, drink and animal feeding stuffs. Keep working clothes separately. Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product. Wash contaminated clothing before reuse.

Storage Conditions.

Keep container tightly closed in a dry and well-ventilated place. Keep away from open flames, hot surfaces and sources of ignition. Keep in properly labeled containers. Store in accordance with local regulations. Keep away from food, drink and animal feedingstuffs.

8. Exposure Controls/Personal Protection

Ingredients with Occupational Exposure Limits

<u>Chemical Name</u>	<u>ACGIH TLV-TWA</u>	<u>ACGIH-TLV STEL</u>	<u>OSHA PEL-TWA</u>	<u>OSHA PEL-CEILING</u>
-----------------------------	-----------------------------	------------------------------	----------------------------	--------------------------------

Contains no substances with occupational exposure limit values.

TLV = Threshold Limit Value TWA = Time Weighted Average PEL = Permissible Exposure Limit STEL = Short-Term Exposure Limit N.E. = Not Established

Engineering Measures.

Ensure adequate ventilation, especially in confined areas. Apply technical measures to comply with the occupational exposure limits. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction.

Personal protective equipment.

Eye/Face Protection.

Safety glasses with side-shields. If splashes are likely to occur, wear: Goggles. Face-shield.

Skin and body protection.

Nitrile rubber. Neoprene gloves. Impervious butyl rubber gloves. Long sleeved clothing. Wear impervious gloves and/or clothing if needed to prevent contact with the material. Chemical resistant apron. Footwear protecting against chemicals. Gloves must be rinsed thoroughly after use. Gloves must be inspected prior to use. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion. Remove and wash contaminated clothing before re-use.

Respiratory protection.

In case of mist, spray or aerosol exposure wear suitable personal respiratory protection and protective suit. In case of inadequate ventilation wear respiratory protection. If exposure limits are exceeded or irritation is experienced, respiratory protection should be worn. Respiratory protection must be provided in accordance with current local regulations.

9. Physical and chemical properties.

Information on basic physical and chemical properties.

Physical state	Liquid
Appearance	No Information
Color	light yellow
Odor	Petroleum distillates
Odor Threshold	No Information
pH	No Information
Melting/freezing point., °C (°F)	No Information
Flash Point., °C (°F)	39 (102.20)
Boiling point/boiling range., °C (°F)	100 - 218 (212 - 424.4)
Evaporation rate	No Information Available
Explosive properties.	No Information
Vapor pressure.	No Information
Vapor density.	No Information
Specific Gravity. (g/cm ³)	0.880
Water solubility.	No Information
Partition coefficient.	No Information
Autoignition temperature., °C	No Information
Decomposition Temperature °C.	No Information
Viscosity, kinematic.	No Information

Other information.

Volatile organic compounds (VOC) content.	3.99 lb/gal
Density, lb/gal	7.330

10. Stability and Reactivity

Reactivity.

No dangerous reaction known under conditions of normal use.

Chemical stability.

Stable under recommended storage conditions.

Possibility of hazardous reactions.

None under normal processing.

Conditions to Avoid.

Heat (temperatures above flash point), sparks, ignition points, flames, static electricity. Do not freeze.

Incompatible Materials.

No materials to be especially mentioned.

Hazardous Decomposition Products.

Thermal decomposition can lead to release of irritating gases and vapours.

11. Toxicological Information

Information on toxicological effects.

Acute toxicity.

Product Information

No Information

The following values are calculated based on chapter 3.1 of the GHS document.

ATEmix (oral)	17,426.1 mg/kg
ATEmix (dermal)	24,469.9 mg/kg
ATEmix (inhalation - dust/mist)	49.91 mg/l

Component Information.

CAS-No.	Chemical Name	LD50 Oral	LD50 Dermal	LC50 Inhalation
64742-47-8	Petroleum distillates, hydrotreated light	> 5000 mg/kg (rat)	> 2000 mg/kg (rabbit)	> 5.28 mg/L (rat) 4-h (Vapor)
Proprietary	Glycol ether (non-HAP)	3449 mg/kg (rat)	4052 mg/kg (rabbit)	> 9.0 mg/L 6-hr (rat) (Dust)
107534-96-3	Tebuconazole	1700 mg/kg (rat)	N.I.	N.I.
55406-53-6	3-iodo-2-propynyl butyl carbamate	1470 mg/kg (rat)	> 2000 mg/kg (rabbit)	0.68 mg/l 4-hr (rat) (Dust)

N.I. = No Information

Skin corrosion/irritation.

No Information

Eye damage/irritation.

No Information

Respiratory or skin sensitization.

May cause allergic skin reaction.

Ingestion.

May be harmful if swallowed. Aspiration into lungs may cause pulmonary edema and chemical pneumonitis.

Germ cell mutagenicity.

No Information

Carcinogenicity.

No Information

Reproductive toxicity.

Tebuconazole caused developmental toxicity in animal studies. The U.S. EPA under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the European Union under the Biocidal Products Regulation (BPR) have reviewed the full toxicological database for tebuconazole as well as occupational exposure use patterns related to wood preservative use. Both agencies determined the risks for humans and the environment were within acceptable limits when used in accordance with the approved label instructions.

Specific target organ systemic toxicity (single exposure).

No Information

Specific target organ systemic toxicity (repeated exposure).

Repeated or prolonged inhalation of elevated levels of 3-iodo-2-propynyl butyl carbamate (IPBC) dust may cause chronic respiratory irritation. (STOT RE - Target organ: Larynx)

Aspiration hazard.

No Information

Primary Route(s) of Entry

No Information

12. Ecological Information

Toxicity.

34.50% of the mixture consists of ingredient(s) of unknown aquatic toxicity

Ecotoxicity effects.

Chemical Name	Toxicity to algae	Toxicity to fish	Toxicity to daphnia and other aquatic invertebrates
Petroleum distillates, hydrotreated light 64742-47-8	-	LC50 96 h Pimephales promelas 45 mg/L, LC50 96 h Lepomis macrochirus 2.2 mg/L, LC50 96 h Oncorhynchus mykiss 2.4 mg/L	-

Glycol ether (non-HAP) Proprietary	-	LC50 96 h Oncorhynchus mykiss >100 mg/L	-
Tebuconazole 107534-96-3	Acute IC50 72-h: 3.8 mg/L Pseudokirchneriella subcapitata	Acute LC50: 96 h Oncorhynchus mykiss 4.4 mg/L	Acute EC50 48-h, Daphnia magna: 2.79 mg/L
3-iodo-2-propynyl butyl carbamate 55406-53-6	EC50: 72-hr (algae) Scenedesmus subspicatus 0.022 mg/L	LC50 96 h Lepomis macrochirus 0.14 - 0.32 mg/L, LC50 96 h Oncorhynchus mykiss 0.049 - 0.079 mg/L, LC50 96 h Oncorhynchus mykiss 0.05 - 0.089 mg/L, LC50 96 h Pimephales promelas 0.18 - 0.23 mg/L	EC50: 48-hr Daphnia magna 0.16 mg/L

Persistence and degradability.

No data are available on the product itself.

Bioaccumulative potential.

No data are available on the product itself.

CAS-No.

55406-53-6

Chemical Name

3-iodo-2-propynyl butyl carbamate

log POW

2.88

Mobility in soil.

No information

Other adverse effects.

No information

13. Disposal Considerations

Waste Disposal Guidance.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Immediately place absorbent material in a sealed water-filled metal container to avoid spontaneous combustion of absorbent material contaminated with this product.

Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport Information

DOT

Shipping Name: NA1993, Combustible liquid, n.o.s (mineral spirits), 3, III

Additional Information: DOT Ground - Non-bulk shipments may be non regulated per 49CFR 173.150(f)(2).

IMDG

Proper Shipping Name: UN1306, Wood preservatives, liquid, 3, III

IATA

Proper Shipping Name: UN1306, Wood preservatives, liquid, 3, III

U.S. Federal Regulations:

SARA SECTION 313:

This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendment and Reauthorization Act of 1986 and 40 CFR part 372: .

<u>Chemical Name</u>	<u>CAS-No.</u>	<u>Weight Percent</u>
3-iodo-2-propynyl butyl carbamate	55406-53-6	1.0-2.5

TOXIC SUBSTANCES CONTROL ACT 12(b):

This product contains the following chemical substances subject to the reporting requirements of TSCA 12(B) if exported from the United States:.

<u>Chemical Name</u>	<u>CAS-No.</u>
Nonane	111-84-2

U.S. EPA PESTICIDE INFORMATION

EPA Pesticide Registration Number: Custom Blend of 60061-123 & 279-3283-60061

EPA STATEMENT: This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label:

EPA PESTICIDE LABEL: CAUTION. Avoid contact with skin or eyes.

ADDITIONAL INFORMATION

Additional Information - Sxn 15: No Information

CALIFORNIA PROPOSITION 65 CARCINOGENS

WARNING

Warning: The following ingredients present in the product are known to the state of California to cause Cancer:

<u>Chemical Name</u>	<u>CAS-No.</u>
Benzene, (1-methylethyl)-	98-82-8

CALIFORNIA PROPOSITION 65 REPRODUCTIVE TOXINS

WARNING

Warning: The following ingredients present in the product are known to the state of California to cause birth defects, or other reproductive hazards.

Chemical Name

Toluene

CAS-No.

108-88-3
